QUANTITATIVE INSTRUCTOR		Sunil Hazari												
		Responses					Individual							
		SA	A	N	D	SD	N	Mean	Med.	Mode	Std Dev			
Q11	The syllabus clearly outlined course expectations and evaluations of student work.	19	6	2	0	0	27	4.6	5	5	.62			
Q12	The instructor provided helpful feedback on assignments.	19	5	3	0	0	27	4.6	5	5	.68			
Q13	The instructor communicates effectively.	19	7	1	0	0	27	4.7	5	5	.54			
Q14	The instructor demonstrates respect for students.	17	9	1	0	0	27	4.6	5	5	.56			
Q15	The instructor is receptive and responsive to the sharing of ideas during course discussions.	18	7	2	0	0	27	4.6	5	5	.62			
Q16	The instructor offers and is available for individual assistance.	16	10	1	0	0	27	4.6	5	5	.57			

Responses: [SA] Strongly Agree=5 [A] Agree=4 [N] Neutral=3 [D] Disagree=2 [SD] Strongly Disagree=1

Q17 - Explain what supported your learning in this course, and provide any suggestions for change.

Response Rate: 77.78% (21 of 27)

1	the syllabus	
2	the course helped me learn	
3	having access to different platforms	
4	What supported my learning was the clear instructions left on how to complete course materials, weekly assignments, and supplementary information. This was perfect to get us prepared and get a good grade on the assignments.	
5	The use of discussion posts and assignments that actually required me to put my new knowledge to use, such as designing different websites.	
6	The main thing that supported my learning in this class was the website building and design projects. This allowed me to take what we were learning and apply it to real-life work.	
7	The hands-on assignments supported my learning in this course. I think adding information about how to record a professional video with our phones would be a good addition to help us students create a more professional website.	
8	The course reading materials supported my learning	
9	The chapters in the book, the discussion posts, and the projects supported my learning in this course, and I think keeping those elements consistent will continue to help students.	
10	The assignments were too much for one week.	

11	The assignment were wonderful at helping me learn, I have no suggestions really as I think it was a perfect balance between writing assignments and actual website design ones.	
12	SHowing us how to design websites through assignments and projects.	
13	Prof. Hazari sent out plenty of announcements and reminders during the course. He also did a great job of laying out the expectations for each assignment/discussion post. The requirements for the main post and the response post were very clear. The explanation of the 22/12 rule was amazing and guided my writing all semester.	
14	No suggestions for change, professor provided great feedback for every post and helped you with what to improve on	
15	My learning was supported by the feedback I was given as well as given by others, additionally the detailed assignments allowed for ease of understanding which was helpful.	
16	Love how we had strict deadlines so that way we made sure to stay on track.	
17	I liked creating the websites on different sites.	
18	Good help	
19	Every website-making tool helped me develop my skills. I think more examples can help students understand the material better.	
20	Completing the weekly assignments.	
21	An easily accessed schedule	

Q18 - Comment specifically on how texts, materials, assignments, and/or activities contributed to your learning.		
Response Rate:	66.67% (18 of 27)	
1	it helped well	
2	discussions r great	
3	The websites were beneficial in connecting the textbook to real-world website development.	
4	The web design projects in specific helped my learning a lot as I was able to implement what I have learned from the text into actually making a website.	
5	The textbook chapters, course materials, and the assignments and activities all helped me understand the content by giving clear explanations and letting me practice what I learned.	
6	The text was easy to understand and related to assignments and quizzes.	
7	The input that was made from our discussions board and response post helped us prepare and get better grades for our next one. The materials on how we needed to include the textbook was helpful because this was a way we demonstarted we were inputing the materials into our websites correctly.	
8	The discussions helped me dive deeper	
9	The course reading materials was easy to read and understand what they were about	
10	Textbook helped a lot along with making websites and hands on learning for web design	
11	Really beneficial i used it all to my best advantage and it helped me learn a lot about web design in business settings	
12	I believe that the assignments that directly correlate with the material was very helpful and forced students to engage with the content.	
13	Everything is so explicit and detailed that you can know what to do in order to succeed. Only thing I would change would be to include that responding to 1 student does not ensure full credit. Also, I think including that hyperlinks should be mandatory on all assignments. At times, the weekly instructions obtained too much information. The information overload made it harder to remember what all needed to be done, and it was not a quick short read (or reread).	
14	Everything was easy access and every thing was easy to understand because of the multiple pieces of information. Like the slideshows and textbook.	
15	Creating websites, blog posts, and researching what aspects make the website the best.	
16	Assignments made me view the website from a business perspective.	

17	Assignments allowed me to understand the course material.	
18	All of the course materials helped me gain knowledge about the topics and also made me confident when completing the assignments.	

Q19 - Comment specifically on the instructor's overall effectiveness in this course.

Response Rate: 70.37% (19 of 27)

1	it was well	
2	he was nice	
3	he was great and helped a lot	
4	great	
5	While some may complain about the workload, it is necessary in a course such as this and effective for learning the material.	
6	Very effective, liked that he provided feedback.	
7	Very effective	
8	Very communicative and they were easy to access.	
9	The professor was very engaged in discussions and feedback which helped me correct mistakes and complete assignments correctly.	
10	The instructor was very effective because he was always helpful, clear, and genuinely wanted me to do well, which made the class a positive and motivating experience.	
11	Thank you for everything.	
12	Responded quick to concerns and included coursework that wasn't too hard to understand.	
13	Professor Hazari was very effective. He outlined each assignment in great detail and gave clear instructions. Then, once the assignments were done, he gave great feedback. I don't often pay a lot of attention to assignment feedback, but I did in this class because it was very informative and helpful in developing my skills in web design.	
14	Professor Hazari did an excellent job teaching this course as the assignments he had provided lots of opportunities to learn and better our skills in web design and the importance of specific things within web design while also providing good feedback from time to time.	
15	Prof. Hazari has amazing communication skills. I LOVE how detailed the assignment feedback is. I have never had a professor give me more detailed feedback, and I really appreciate that! It was very helpful in understanding where I went wrong on the assignment. The plentiful announcements were also a great reinforcement for staying on track for those who may have needed it.	
16	I felt the instructor was effective in giving the materials necessary to succeed as well as providing feedback.	
17	I appreciate how he graded assignments on time and always offered individual feedback when grades are posted in the gradebook. This was helpful and how to do better!	
18	He is very kind and explains everything in good detail. Very organized	
19	Being able to build my own websites helped me learn course material.
